

in collaboration with CT Department of Social Services,  
is pleased to host an upcoming roundtable discussion...

## **Trends in AIDS Housing 2012 & Beyond**

For Executive Directors and Senior Program Directors

**Presenters:** Department of Social Services Housing Team  
Cassandra Norfleet-Johnson, Brenda Geltzer and Karin Motta

**Wednesday, February 15, 2012, 10:00 a.m. to Noon**  
**Center Congregational Church, 474 Broad St., Meriden**

The Housing Team will discuss “Trends in AIDS Housing 2012 & Beyond” and the impact on AIDS Residential Contracts funded by DSS. The presentation will be in an information sharing format and the basic topics covered will be:

- DSS funding (review over the last 3 years);
- aligning DSS and HOPWA contract language and possible required changes;
- transition plan; and
- HMIS and reporting.

We hope to have a robust conversation. We are constantly asked, “Are consumers better off because of the services we provided?” We would like you to think about the services that you provide with this funding and the face of your consumers. Please be prepared to answer this question for us, “Yes, consumers are best off because of the following ....” and, “How are you measuring and documenting that response?” Although this information will be discussed, please have it written, as DSS will compile your responses and share with membership.

**RSVP to André at 860-761-6699**
